

INTERNET SAFETY AND TECHNOLOGY/ ACCEPTABLE USE POLICY

The Passaic Board of Education shall develop a technology plan that promotes the effective use of electronic communication to advance and promote learning and teaching. Such a plan will be created every three years, allowing for review and revisions on an annual basis. Educational technology shall be infused into the district curriculum to maximize student achievement of the New Jersey Student Learning Standards for all content areas and grade levels.

It is the policy of the district to establish safe and effective methods for student and staff users of the district's technological resources and to:

- A. Prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications;
- B. Prevent unauthorized access and other unlawful online activity;
- C. Prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and
- D. Comply with the Children's Internet Protection Act (CIPA).

**Compliance with CIPA**

Filters Blocking Access to Inappropriate Material

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet communications, or other forms of electronic communications, access to inappropriate information.

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes.

INTERNET SAFETY TECHNOLOGY (continued)

Inappropriate Network Usage

To the extent practical, steps shall be taken to promote the safety and security of users of the school district online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes:

- A. Unauthorized access, including so-called "hacking," and other unlawful activities; and
- B. Unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

Education, Supervision and Monitoring

It shall be the responsibility of all members of the school district staff to educate, supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and the Children's Internet protection Act. Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the superintendent or his or her designee.

The superintendent or his or her designee shall ensure that students and staff who use the school internet facilities receive appropriate training including the following:

- A. The district established standards for the acceptable use of the internet;
- B. Internet safety rules;
- C. Rules for limited supervised access to and appropriate behavioral expectations for use of online resources, social network websites, and chat rooms;
- D. Cyberbullying (board policy 5131.1 Harassment, Intimidation and Bullying) awareness and response.

Individual E-mail Accounts for Students

Students in grades 3-8 may have individual e-mail accounts at the request of teachers and with the consent of parents/guardians. An individual account for any such student shall require an agreement signed by the student and his/her parent/guardian.

Students in grade 9-12 may be granted individual e-mail accounts and access to the system. An individual account for any such student shall require an agreement signed by the student and his/her parent/guardian.

INTERNET SAFETY TECHNOLOGY (continued)

Supervision of Students

Student use of the Internet shall be supervised by qualified staff.

District Web Site

The Board authorizes the Superintendent or his/her designee to establish and maintain a district web site. The purpose of the web site will be to inform the district educational community of district programs, policies, and practices.

Individual schools and classes may also establish websites that include information on the activities of that school or class. The Director of Information Technology, along with the building principal, shall oversee these websites.

The Superintendent or his/her designee shall ensure that district and school websites do not disclose personally identifiable information about students without prior written consent from parents/guardians. Consent shall be obtained on the form developed by the New Jersey Department of Education. "Personally identifiable information" refers to student names, addresses, e-mail addresses, phone numbers, and locations and times of class trips.

Acceptable Use of the Internet

The Passaic Board of Education recognizes new technologies may shift the manner in which information is accessed, communicated, and transferred; these information and communication technologies will alter and enhance the nature of teaching and learning. The board supports access by students and employees to such information sources to create a 21st century learning experience that adequately prepares them for college and career. The board also reserves the right to limit use of these technologies on the computer network to legitimate, appropriate educational purposes.

The board supports users utilizing the computer network in a manner that is responsible, ethical, respectful, and in accordance with this policy.

The district will make a reasonable effort to monitor the use of school computer networks/computers and internet filters shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.

The board recognizes that despite effective blocks and filters, the Internet constitutes an unregulated collection of resources that changes constantly, so it is not possible to totally predict or control the resources that users may locate. The board cannot guarantee the accuracy of the information or the appropriateness of materials that a user may encounter. Furthermore, the board shall not be responsible for any damage users may suffer, including but not limited to, loss of data or interruptions of service. Nor shall the board be responsible for financial obligations arising through the unauthorized use of the system.

INTERNET SAFETY TECHNOLOGY (continued)

The board adopts the following standards of conduct for the use of computer network/computers, including electronic mail communications. All student and staff users of school computer networks/computers shall adhere to the board standards of acceptable use of technology. Violation of the board policy for acceptable use may result in disciplinary action, limiting or revoking network access privileges, and/or instituting legal action.

The board shall provide access to school computer networks/computers for educational purposes only, and, for employees, for purposes related to job performance. The board retains the right to restrict or to terminate access to the computer network/computers at any time, for any reason. The board retains the right to have district personnel monitor network activity, in any form necessary, to maintain the integrity of the network and to ensure its proper use and compliance with Federal and State laws that regulate Internet Safety. Access to the district network/computers is a privilege.

For the purposes of this policy, the following definitions shall apply:

A. Computer Network/Computers

“Computer network/computers” consist of any school managed or owned computer equipment or systems, including, but not limited to, networks, hard drives, servers, peripherals, printers, networking systems, tablets, electronic devices, laptops/chromebooks, modems, electronic documents, video, voice and data networks, routers, storage devices, and classrooms equipped with such equipment. “Computer network/computers” shall also include electronic communications which shall be defined as and include the use of information systems in the communicating, posting, or obtaining of information or materials by way of electronic mail, chats/forums, messaging, bulletin boards, Internet, or other such electronic tools.

B. User

A “user” is any individual, with or without authorization, who utilizes the board’s computing system from any location.

Standards for Use of Computer Networks

District issued network and device services are provided exclusively for informational and educational purposes. Educational purposes are those that are related to or necessary to prepare for or to complete lessons or classroom assignments, and, for employees, those purposes related to job performance. Users will comply with district standards, federal and state laws and will act in a responsible and legal manner. Users are prohibited from engaging in the following conduct and shall be subject to discipline and/or legal action for such conduct:

- A. Using the computer network/computers for other than educational purposes;
- B. Using the computer network/computers for illegal activities or in support of illegal activities. Illegal activities are defined as activities which violate federal, state, and local laws or regulations;

INTERNET SAFETY TECHNOLOGY (continued)

- C. Using the computer network/computers in a way that violates existing board policy;
- D. Using the computer network/computers for obscene purposes or to obtain or transmit obscene materials. Obscene materials are those that appeal to the prurient interest and/or depict sexual conduct in a patently offensive way;
- E. Using the computer network/computers to send or display lewd, indecent, or vulgar speech or materials;
- F. Using the computer network/computers to send or display harassing, demeaning, or offensive speech or materials;
- G. Using the computer network/computers to engage in activities that could materially or substantially interfere with the operation of the school, the school's educational mission, or other students' rights;
- H. Using the computer network/computers to violate copyrights, trademarks, an individual's right of publicity, any form of intellectual property, license agreements, or other contracts;
- I. Using personal devices or equipment (including personal cellular device);
- J. Using the computer networks/computers in a manner that:
  - 1. Intentionally disrupts network traffic or crashes the network;
  - 2. Degrades or disrupts equipment or system performance. Examples of conduct that degrade or disrupt equipment or system performance include, but are not limited to, the following activities: installing computer viruses; disabling protective software; sending unnecessary or excessive mail or messages;
  - 3. Uses the computing resources of the district for commercial purposes, financial gain, or fraud;
  - 4. Steals data or other intellectual property;
  - 5. Gains or seeks unauthorized access to files of others or vandalizes the data of another user;
  - 6. Forges electronic mail messages or uses an account owned by others;
  - 7. Invades the privacy of others. Users will not use the network to obtain private information about others, post private information about another person, or re-post a message that was sent to them privately without permission of the person who sent the message;
  - 8. Disrupts the learning process by engaging in the playing of online games that are not intended for educational purpose or academic gain;
  - 9. Violates the safety and security of others or is disrespectful to others by using language that includes but is not limited to profane, racist, sexist or discriminatory remarks; or any violation of the HIB policy;
  - 10. Possesses any data which is in violation of this policy; and/or
  - 11. Engages in other activities that do not advance the educational purposes for which the computer network/computers are provided.

INTERNET SAFETY TECHNOLOGY (continued)

Prohibited Language

Prohibited language applies to public messages, private messages, and material posted on web pages.

Users shall not send or receive messages that contain obscene, profane, lewd, vulgar, rude, inflammatory, or threatening language.

Users shall not use the system to spread messages that can reasonably be interpreted as harassing, discriminatory or defamatory.

Violation of Acceptable Use Policy

The use of the Internet is a privilege. Any violation of board policy may result in the loss of district-provided access to technology. Law enforcement agencies may be contacted regarding potential illegal activities. Violations may also result in disciplinary action outlined in building specific Staff/Student Handbooks. Users in violation of this policy are subject to the following consequences, which include but are not limited to:

- A. Use of computer networks/computers only under direct supervision;
- B. Limited access to predetermined educational resources
- C. Suspension and/or revocation of network privileges and/or computer privileges only under extreme circumstances;
- D. For employees, letters of reprimand, increment withholding, loss of employment;
- E. Legal action and prosecution by the appropriate authorities.

Standards for the Promotion of Online Safety for Students

Students are required to adhere to the following guidelines regarding safety. Any individual who fails to adhere to these guidelines may have his/her network privileges revoked:

- A. Users are prohibited from displaying any personally identifiable information about students including name, address, photographs, social security number, or other personal characteristics that would make the student easily identifiable without obtaining prior consent of the student's parent or guardian;
- B. Students are obligated to disclose to a teacher or parent any information or electronic messages which make them uncomfortable;
- C. Users shall never engage in any kind of personal contact or meet with individuals they meet online without first receiving permission from a parent. Attempts at contact from such

INTERNET SAFETY TECHNOLOGY (continued)

individuals shall be reported immediately to the staff person monitoring that child's access to the Internet. Personal contact information includes but is not limited to names, home/school/work addresses, telephone numbers, or personal photographs;

- D. Users should never divulge their district-assigned credentials (username/password) and will be held accountable for the consequences of intentionally or negligently disseminating this information.

Parental Notification and Responsibility

The superintendent shall ensure that parents/guardians are notified about the district network and the rules governing its use. Parents/guardians shall sign an agreement to allow their child(ren) to have an individual account. Parents/guardians who do not wish their child(ren) to have access to the Internet must notify the principal in writing.

Privacy

In accordance with N.J.S.A. 18A:36-39 students furnished with a computer, laptop or other electronic device are hereby notified that the electronic device may record or collect information on the student activity or student use of the device. Collection of this information will not be used in a manner that would violate the personal privacy rights of the student or any individual residing with the student.

User's files and other electronic storage areas shall be considered district property for purposes of inspection and control. The system administrator may access all such files and communications. Users are informed by acceptance of the Acceptable Use Policy that any information stored is not private.

Individuals should have no expectation of privacy with respect to their files or communications on board provided computer network/computers. All data stored or transmitted or accessed by users, including email, online forums, messaging and the like can and will be monitored by the board.

It is expressly understood that the system administrator may monitor staff/student activity on the networks/computers and the Internet and may access any files stored by user on district computers or at a remote site accessed by district computers. It is further understood that the system administrator, the Principal, or the Superintendent may discontinue the networks/computers and Internet access privileges and may discipline any student who violates the terms of this policy.

Due Process

In the event there is an allegation that a student has violated the Acceptable Use Policy, that student will be provided with a written notice of the alleged violation and an opportunity to present an explanation before a district administrator. A hearing will be provided when required by board policy or the applicable statutes and regulations governing discipline of students/staff.

INTERNET SAFETY TECHNOLOGY (continued)

Employee violations of the Acceptable Use Policy will be handled in accordance with board policy and the current Collective Negotiations Agreement.

Responsibility for Damage Suffered

The board makes no warranties of any kind, expressed or implied, for the Internet access it provides. The board will not be responsible for any damage users suffer including, but not limited to, loss of data or interruption of service. The board is not responsible for the accuracy or quality of the information obtained through or stored on the system. The board is not responsible for financial obligations arising from the unauthorized use of the system.

Specific conditions and services on the computer network and the Internet change from time to time, and the board makes no warranties with respect to services and specifically assumes no responsibility for:

- A. Any costs, liability or damages caused by staff/student use of the computer networks or the Internet;
- B. Any consequences of service interruptions or changes whether or not they were under the control of school district staff; and/or
- C. Users will be personally charged for any unauthorized costs incurred in their use of the computer network/computers and held responsible for any damages caused by their misuse of the computer network/computer equipment.

The board will fully cooperate with any local, state or federal agency in any investigation concerning or relating to misuse of the board's computer network/computers.
